Specific requirements	none
University Placement Support	Chichester – nursingplacements@chi.ac.uk or contact Academic Assessor See MyPAD for email
Practice Education Placement Support team	NursingStudents@wsht.nhs.uk
Philosophy	The ward philosophy is to deliver excellent patient- focused care by way of best evidence-based practices, open communication, and multi-disciplinary teamwork. Our aims are to maintain the high standards of the trust, where patients and their loved ones can feel safe and supported during their time in our care.
Learning experiences	Students are able to integrate fully into the work of the ward providing direct patient care developing clinical skills and a sound knowledge base of the surgical pathway. Students will be participating in assessing, planning and implementing individualised patient care and documentation of this by way of written and electronic records. Students will be allocated mentors and expected to work with them and follow their rota the majority of the time to achieve discussed learning objectives, however, the whole team are happy to help encourage students as unexpected learning opportunities arise such as deteriorating

	patients or uncommon procedures.
Learning Outcomes	<p>In broad terms</p> <p>Year 1 – observe and develop skills in direct patient care and documentation (both written and electronic).</p> <p>Year 2 – further develop independent working under supervision and communication within the MDT.</p> <p>Year 3 – develop independent practice and management of own patient workloads.</p>
