TURNITIN	No automatic access. Local arrangements apply for each partner, both contractual and non-contractual. Link available via Moodle is therefore available on a trust basis depending upon these arrangements. Turnitin require that every separate site where students are not taught by UoC staff have their own license. We are able to arrange this on behalf of partners, and then pass the fee charged by Turnitin on to the partner. Any other partner is currently not able to utilise Turnitin. If partners do not choose to ask us to arrange with Turnitin for them to have their own license, they can either liaise with Turnitin directly themselves, or can use another sufficiently robust method of detecting plagiarism
