UNIVERSITY OF
CHICHESTER

To turn the display on/off - press 'POWER ON' or 'POWER OFF'

Select your input: HDMI, VGA or VIDEO.

MUTE the volume with the MUTE button.

Raise and lower the volume with VOL ▲ and VOL ▼
The volume appears on screen as a large number
within a circle.

Connect your device with the appropriate set of connectors:

HDMI connector for most laptops.

VGA + audio connector for older laptops lacking HDMI *

Some booths (not all) still contain a VIDEO option using a Phono
connection for legacy camera equipment (yellow, red and white (or
black) RCA phono connectors).

*VGA not available in Booth 6
